Professional Summary

Motivated Computer Science and Engineering graduate with a strong interest in Data Analytics and Business Intelligence. Proficient in SQL, Python, Microsoft Excel, Power BI, and MySQL, with hands-on experience in data cleaning, data visualization, ETL, dashboard development, and analytical reporting through academic and personal projects. Skilled at transforming raw data into meaningful insights to support data-driven decision-making. A quick learner with strong analytical thinking, problem-solving abilities, and attention to detail, seeking an entry-level Data Analyst position to contribute technical and analytical skills in a dynamic organization.

Work Experience

Intern – Software Quality Assurance, Goinnovior Limited	12/2025 – 03/2026
- Analyzed software testing results to identify recurring defects and improve application quality through structured reporting. - Documented bugs with severity levels, reproduction steps, and supporting evidence using Jira, ensuring effective issue tracking and resolution. - Prepared detailed test reports and collaborated with cross-functional teams to monitor defect trends and project progress. - Performed functional, UI, smoke, and regression testing while maintaining accurate testing documentation and execution records. - Conducted API testing via Postman and used Browser DevTools for front-end debugging and network traffic analysis.	Mirpur DOHS, Dhaka-1216, Bangladesh
Intern - AR / VR Game Development, Battery Low Interactive Ltd	10/2025 – 11/2025
Successfully designed and delivered an AR mobile application, including an Android APK build for internal testing.	Baridhara, Dhaka, Bangladesh

Education

Bachelor of Science (B.Sc.) in Computer Science and Engineering, <i>Green University of Bangladesh</i> CGPA: 3.38	2022 – 2026
--	-------------

Technical Skills

Programming Languages Python, Java (Basic), TypeScript, C++	Technical Skill 35+ WPM Typing speed (English), Database Design, Microsoft Office
Data Analytics MySQL, Python, Microsoft Excel, Power BI, ETL, Data Cleaning, Data Visualization, Dashboard Development	Tools Power BI, Microsoft Excel, Google Sheets, Jupyter Notebook, Google Colab, Git (Basic), VS Code
Soft Skills Problem-Solving, Team Collaboration, Time Management, Project Management, Effective Communication	

Language Proficiency

Bangla Mother Tongue: Well-versed both in Oral & Written.	English Strong proficiency in formal writing, documentation, reporting, and technical communication.

Certification

Data Analyst with SQL and Python

- Farhan's Academy
- Issued: March 2025

Job Ready: Employability Skills at the Basic

- Wadhawani Foundation
- Issued: December 2025

Projects

Sales Data Analysis, Python · Pandas · Data Cleaning · EDA

- Cleaned and preprocessed raw sales data using Python and Pandas by handling missing values, duplicates, incorrect data types, and inconsistent records.
- Performed exploratory data analysis (EDA) to identify sales trends, seasonal patterns, and top-performing products.
- Built interactive dashboards and visualizations using Power BI and Matplotlib to present key business insights and support data-driven decision-making.

Online Banking System Analysis, SQL · Power BI · ETL

- Analyzed banking transaction data using SQL to identify customer activity, transaction trends, and account performance.
- Designed interactive Power BI dashboards and visual reports to support data-driven decision-making and performance monitoring.

Kacchi.com Sales Analysis, SQL · Power BI · ETL

- Extracted, cleaned, and transformed restaurant sales data using SQL and ETL techniques to prepare datasets for analysis.
- Analyzed sales performance, customer ordering patterns, product popularity, and revenue trends using SQL queries.
- Designed interactive Power BI dashboards to visualize sales KPIs, top-selling menu items, peak sales periods, and regional business performance.
